Profile

Dynamic Front-End Developer and UI Designer with over 3 years of experience building responsive, user-focused web applications. Skilled in **React**, **TypeScript**, **Tailwind CSS**, and **Vite**, with a strong eye for design consistency and performance optimization. Adept at translating complex business needs into clean, maintainable code and seamless user experiences. Experienced in both collaborative Agile teams and independent freelance roles, including work for brands like **Blush and Bandage**.

Also brings prior experience as an **English language instructor**, delivering structured, engaging lessons and supporting learners in achieving success in exams like **IELTS** and **TOEFL**. Passionate about continuous learning, clear communication, and creating digital products that are both beautiful and functional. Currently seeking to contribute technical expertise and creative insight to meaningful projects within a forward-thinking organization.

PROFESSIONAL EXPERIENCE

Frontend Developer / UI Designer

Blush & Bandage — December 2024 – August 2025

- Developed responsive, mobile-first web application for luxury post-op recovery service using React and TypeScript
